SUMMARY

My journey as a Fullstack Developer has equipped me with a comprehensive skill set and a deep understanding of the entire software development lifecycle. On the front-end, I am proficient in HTML, CSS, and JavaScript, along with modern frameworks such as ReactJS, React Native and NextJS. On the back-end, I have experience working with technologies such as Node.js and .NET. I am well-versed in server-side logic, SQL databases, database integration, and API development, ensuring the scalability and performance of web applications.
